

NATIVE GROUND

1 This case shows 4 types of Coast Salish fishing methods – what are they?

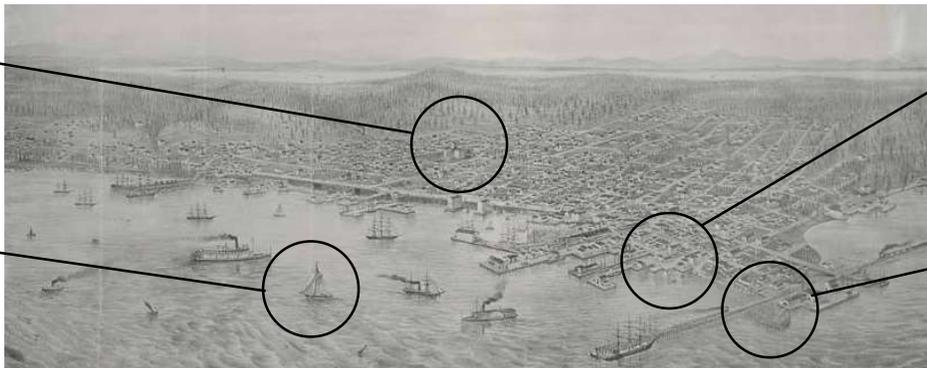

2 Cross the stream of salmon to enter the gallery. Find something woven and something carved. What are they each used for? Sketch or write below.

GETTING STARTED

3 Take a close look at the bird's eye view of Seattle in 1879 on the wall. As a team, find a person, image, or artifact in the gallery connected to each of the circled areas.

schools

ships

Native canoes

lumber mills

HIGH HOPES

4 What three early WA industries are represented in this room? These photos in the gallery have clues nearby.

GOLD RUSH!

5 Plan your trip to the Klondike! Explore the room to find clues about what the journey to Alaska might be like. What three artifacts would you most want to take with you? List or sketch below.

SEATTLE BY DESIGN

6 This room contains many examples of engineering projects (some pictured to the right) that changed the landscape of the Seattle area. Pick one – what is it? _____

What positive and negative impacts might this project have had on the environment or people who lived and worked nearby?

ENGINES OF INDUSTRY

7 This walkway shows several jobs in some of the area’s important industries in the early 20th century. What is something you notice? What is something you wonder?

I see... _____ I wonder... _____

WWII

8 What are three different changes to daily life in the Seattle area that happened during the war? Find the areas of the gallery in these photos for clues.

CHANGES

9 Choose a photo of people in the walkway and answer the following questions:

- o Who do you see? _____
- o Where are they? _____
- o What are they doing (and why)? _____

TECH CITY

10 This hallway shows several medical and technological innovations from this region.

- Which one do you think is the most creative? _____
- Which one do you think is the most important? _____
- Which one do you think has had the greatest impact? _____

WORLD CITY

11 Explore both the outdoor sports section and the section on forces of nature. How do you think Seattle has been influenced by its geography and nature?
